<b>Introduction</b> .....	4	Science.....	27
<b>Chapter 1—About Autism Spectrum Disorders</b>		Social Studies .....	28
Diagnosing a Child with ASD.....	5	A Special Note about Writing.....	28
<b>Chapter 2—Assessment and the Individualized Education Program (IEP): An Overview</b>		<b>Chapter 5—Available to Learn: Providing Appropriate Sensory Input</b>	
Step 1: Identifying Children with ASD.....	7	Sensory Integration Issues and Being Available to Learn .....	32
Step 2: The IEP Process—Forming the IEP Team.....	8	The Sensory Systems .....	32
Who’s Who on IEP Teams .....	8	Typical Behaviors That Result from Sensory Integration Dysfunction.....	33
How IDEA Governs IEP Teams.....	9	Providing a More Stable Environment .....	35
Initial Assessment of the Child .....	9	The Purpose of a Sensory Diet.....	36
The Least Restrictive Environment (LRE).....	9	Creating the Sensory Diet.....	36
Step 3: Aligning the Potential LRE to the Child’s Assessment.....	10	Sensory Diet Implementation .....	36
LRE Considerations: Child .....	10	Specific Ideas for a Sensory Diet:	
LRE Considerations: Parents.....	10	Tactile Sensory Input .....	37
LRE Considerations: Staff and Services.....	11	Specific Ideas for a Sensory Diet:	
LRE Considerations: Budget.....	11	Vestibular and Proprioceptive Input.....	38
LRE Considerations: LRE Environment.....	11	Specific Ideas for a Sensory Diet:	
LRE Considerations: LRE Curriculum .....	11	Motor Planning .....	40
Goals and Future Considerations.....	12	Sensory Diet Planning Sheet .....	42
A Special Word about Working with Parents .....	12	<b>Chapter 6—Facilitating Socialization and Communication</b>	
Tips for Working Closely with Parents to Develop the Best Educational Plan.....	13	Working “with” Autism to Foster Social Skills.....	43
A Final Word about IEP Meetings .....	13	Socialization Strategies.....	44
<b>Chapter 3—Moving beyond the IEP Meeting into the Classroom</b> .....	14	Dealing with Curious Classmates .....	45
<b>Chapter 4—The Learning Environment: Adjusting the Classroom and the Curriculum</b>		The Effect of ASD on Communication and Language Development .....	46
The Classroom .....	15	Children with ASD often possess deficits, including .....	47
Noise.....	15	Behavioral and Emotional Regulation.....	48
Smells.....	15	Speech.....	48
Temperature .....	16	Unconventional Verbal Behavior.....	48
Lighting .....	16	Strategies to Improve Communication.....	49
Other Visual Considerations.....	16	<b>Chapter 7—Beyond the Sensory Diet: Behavior Modification</b>	
Classroom Layout .....	18	Consider Sources other than ASD.....	51
Desk Placement.....	18	When NOT to Attempt to Modify Behavior .....	51
Desk Organization and Materials .....	19	Documenting Behaviors.....	52
Alternative Seating.....	20	Changing the Behavior .....	52
Sensory Break Area.....	20	Intervention Programs .....	55
Classroom Management.....	21	What to Do about Some Specific Behaviors .....	55
Transitions .....	22	<b>Conclusion</b> .....	57
Timing and Introduction .....	22	<b>Appendix A: The IEP Meeting—Hints for Parents of Children Who May Be on the Autism Spectrum</b> .....	58
Teaching Style.....	22	<b>Appendix B: Autism and Play—A Guide for Parents</b> .....	61
Be a Calming Influence .....	23	<b>References</b> .....	64
Assess Your Instructional Methods.....	23		
Information and Directions.....	24		
Accommodating and Modifying Materials.....	26		
General Accommodations .....	26		
General Modifications .....	26		
Accommodations for Specific Curriculum Areas.....	26		
Language Arts .....	27
