Standards Correlation for Photographic Learning Cards—Counting Cats 0–20

This product supports the NCTM Principles and Standards for School Mathematics.

This product and the activities in it support the following Number and Operations Standard Expectations for grades Pre-K–2:

- 1. Students count and recognize the number of objects in a set.** *Counting Cats* helps students learn to count to 20 in three different languages and includes images of sets to match to number words and numerals.
- 2. Students understand the relative position and size of ordinal and cardinal numbers.** When used as a number display or for ordering activities, *Counting Cats* reinforces the order of cardinal numbers up to 20.
- 3. Students connect number words to numerals and to the quantities they represent using different physical representations.** *Counting Cats* includes numerals, number words, and sets of objects that students can view and match to reinforce this concept.

This product and the activities in it support the following Algebra Standard Expectations for grades Pre-K–2:

- 1. Students sort, classify, and order objects by a variety of properties.** With this set, students learn to sort sets of objects according to the number of objects within each set.
